AFFIDAVIT OF PROBABLE CAUSE

I, Chief County Detective Les Freehling, have been a sworn law enforcement officer for forty-four (44) years. I am currently assigned as Chief County Detective for the Criminal Investigative Division of the Cumberland County District Attorney's Office. I have been employed by the Cumberland County District Attorney's Office since April of 1998. From March of 1968 until April of 1998 I was employed by the Pennsylvania State Police. In addition to my administrative duties I am also assigned to investigate criminal investigation cases, to include, but not limited to, Internet Child Pornography investigations. I am currently assigned to the Internet Crimes Against Children Task Force for Pennsylvania, managed through the Delaware County District Attorney's Office. Included in my current assignment, I conduct investigations and/or undercover investigations into crimes where computers are used to facilitate crimes. Further, I have been involved with investigations requiring the interdiction of individuals and groups engaged in criminal activity and have utilized confidential informants to ascertain the techniques and methods of operation employed in the furtherance of these criminal activities. I have conducted and participated in criminal investigations involving court-authorized wiretaps, search warrants and arrest warrants. Additionally, I have testified in various prosecutions within the Commonwealth of Pennsylvania resulting in convictions of defendants for violations of the Pennsylvania Consolidated Statutes (Title 18). I have also testified in prosecutions within the jurisdiction of other States and the Federal Government resulting in convictions of defendants for violations of the applicable statutes. I am also familiar with the techniques and methods of operation utilized by individuals involved in criminal activity to conceal their activities from detection by law enforcement authorities. I have participated in investigations into the activities of individuals and groups involved in criminal enterprises including homicide, narcotics trafficking and distribution, conspiracy, theft, and money laundering, and other crimes in which computers were utilized. While a member of the Pennsylvania State Police I received in excess of four-hundred (400) hours of training related to Criminal Investigation Analysis, which included multiple hours of Child Pornography, Pedophilia, sexual assault and homicide. I have also completed training offered by the Pennsylvania Municipal Police Officers Education & Training Commission on "CyberCrimes", and have been involved in numerous investigations where computers and the Internet were used to commit crimes. I have completed the Internet Crimes Against Children P2P training program. Throughout my career, I have investigated and prosecuted numerous cases involving Child Pornography and Pedophilia.

FACTS TENDING TO ESTABLISH THE GROUNDS FOR THIS SEARCH WARRANT AND THE
PROBABLE CAUSE ARE AS FOLLOWS (CONTINUED):

On February 7, 2013 at approximately 10:54 A.M., Marilyn RICE was again interviewed by this AFFIANT and Detective Richard KEEFER of the Cumberland County Criminal Investigation Division. Marilyn RICE reiterated what previously she had related to Officer MILLER, and in addition related to this AFFIANT and Detective KEEFER there is a picture of a "four (4) year old female with her legs spread" and a penis between the aforementioned child's legs.

Additionally, Marilyn RICE advised Officer MILLER, this AFFIANT, and Detective KEEFER that there were chat room / internet conversations between her (Marilyn RICE) husband and other individuals relating to the exchanging of pornographic photographs of children. Marilyn RICE advised that at least one (1) of the conversations related to not using "YAHOO", but to use some other means of communication.

Marilyn RICE advised Detective KEEFER that she (Marilyn RICE) has viewed the aforementioned photographs / conversations on the laptop computer as recently as Sunday, February 3, 2013. Marilyn RICE further advised that, due to her suspicions, Marilyn RICE installed covert software on the subject laptop computer to monitor Robert RICE's Internet usage.

Marilyn RICE further advised that, due to her discovery of Robert RICE's Internet activity, Marilyn directed Robert RICE to leave the residence. Following that directive, Marilyn RICE observed Robert RICE spending time in one (1) of the two (2) outbuildings on the Hogestown Road property. The subject outbuilding Marilyn RICE observed Robert RICE within serves as storage for Robert RICE's possessions and is not a building that Marilyn RICE commonly frequents. The second outbuilding was described by Marilyn RICE as Robert RICE's "man cave", that is to say a building constructed specifically for Robert RICE's private enjoyment.

The aforementioned laptop computer described by Marilyn RICE was turned over to the Silver Spring Township Police Department by Marilyn RICE on February 7, 2013. At that time Marilyn RICE advised that the computer was shared by her (Marilyn RICE) and her husband Robert RICE. As this investigation was referred to this AFFIANT, said computer was also turned over to this AFFIANT.

On February 7, 2013 at 4:10 P.M. a Search Warrant was issued by Magisterial District Judge Paul M. FEGLEY for said computer to be forensically analyzed. Detective Ryan Parthemore analyzed said computer on February 7, 2013.

Number: CID-2013-02-00019

PROBABLE CAUSE BELIEF IS BASED UPON THE FOLLOWING FACTS AND CIRCUMSTANCES:

FACTS TENDING TO ESTABLISH THE GROUNDS FOR THIS SEARCH WARRANT AND THE
PROBABLE CAUSE ARE AS FOLLOWS (CONTINUED):

Detective PARTHMORE has assisted in the execution of dozens of computer and electronic related search warrants. Additionally, he has testified in various prosecutions within the Commonwealth of Pennsylvania and United States federal court resulting in convictions of defendants for violations of the Pennsylvania and federal law. Detective Parthemore is familiar with the techniques and methods of operation utilized by individuals involved in criminal activity to conceal their activities from detection by law enforcement authorities. He has participated with investigations into the activities of individuals and groups involved in crimes including narcotics distribution, conspiracy, theft, fraud, burglary, child exploitation, sex offenses, harassment and computer crimes.

Detective PARTHMORE provided me with the following information:

The HP Pavilion laptop contains deleted files with names consistent with child pornography. Additionally, a folder named "Documents" in the \Users\Public Computer\ folder contains over 2,000 JPG images with filenames beginning with "Screenshot". Each JPG image is a snapshot of the HP Pavilion's display screen while it was being operated at various dates and times. Each JPG snapshot is date and time stamped. This finding is consistent with the information received from Marilyn RICE that she (Marilyn RICE) installed a "spyware" type application to record the computer usage habits of Robert Joel RICE on this HP Pavilion laptop.

The snapshot JPG images form a virtual storybook of the HP Pavilion laptop's usage of the computer between January 25, 2013 and January 26, 2013. The snapshot JPG images contain images of pre-pubescent children engaged in sexual intercourse, masturbation and other prohibited sexual acts. The snapshots also capture an individual logging into a Facebook account. The Facebook account name is "Rob Rice".

Further review of the snapshot JPG images shows that the HP Pavilion laptop's user was storing the aforementioned child pornography on a removable storage drive, that is to say a portable storage device capable of being connected and disconnected from the computer by the user. This removable storage drive was not turned over to police with the laptop. Removable storage drives of this nature can be extremely small in size. Detective Parthemore knows through his training and experience that certain removable storage drives can be built in to a wrist watch or other personal accessory including key chains and pocket knives. Due to their extremely small size and portable nature, they can be stored in virtually any location.

The snapshot JPG images further illustrate that the user of the HP Pavilion laptop used evidence elimination type software to attempt to permanently destroy evidence of the computer's usage. The usage of said software was captured in the snapshot JPG images.

(Issuing Authority):

Number: CID-2013-02-00019

PROBABLE CAUSE BELIEF IS BASED UPON THE FOLLOWING FACTS AND CIRCUMSTANCES:

FACTS TENDING TO ESTABLISH THE GROUNDS FOR THIS SEARCH WARRANT AND THE
PROBABLE CAUSE ARE AS FOLLOWS (CONTINUED):

Based upon my knowledge, training and experience it is known that child sexual offenders generally prefer to store images of child pornography in electronic form such as computer files. The computer's ability to store images in digital form makes a computer an ideal repository for pornography. A small portable disk can contain hundreds or thousands of images of child pornography, and a computer hard drive can contain tens of thousands of such images at very high resolution. The images can be easily sent to or received from other computer users over the Internet through e-mail or chat rooms. Further, both individual files of child pornography and the disks that contain the files can be mislabeled or hidden to evade detection.

Additionally, based upon my knowledge, training and experience, I know that searching and seizing information from computers often requires investigators to seize most or all electronic storage devices (along with related peripherals) to be searched later by a qualified computer expert in a laboratory or other controlled environment.

Additionally, based upon my knowledge, training and experience, I know that pornographic images either on computer or in hard form are traded from one person to the other either through personal contact or over the Internet. Those in hard form are often kept in albums and categorized for trading purposes or for later sexual gratification. Those images in electronic form are usually kept on internal or external storage devices such as; hard drives, floppy discs, compact discs (CD's) or other portable storage units. Some individuals will also print images received in electronic form to hard copy for easy viewing or trade with others. Through my training and experience I know that those individuals who engage in child pornography rarely delete or get rid of photographs or images they acquire. These images are frequently used by an individual for sexual gratification, or to re-live special events in their life.

The investigation initially was only known to Marilyn RICE, however Marilyn RICE has since informed other family members including her daughters, whom are Robert RICE's stepdaughters. The loyalty of the various family members involved cannot be reliably ascertained and Marilyn RICE stated that a general feeling of shock and disbelief is shared by all.

By its very nature, child pornography is a sensitivity possession to the possessor. Exposure of the collection to the public can result in the possessor experiencing criminal prosecution, embarrassment, loss of employment, loss of family relationships and loss of social status. The investigation has determined that Robert RICE has attempted to use evidence elimination software to destroy evidence.

Based upon all of these facts, coupled with the desire to ensure Robert RICE's safety, this AFFIANT respectfully requests the issuance of a nighttime search warrant.

I, THE AFFIANT, BEING DULY SWORN ACCORDING TO LAW, DEPOSE AND SAY THAT THE FACTS SET FORTH IN THE AFFIDAVIT ARE TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE, INFORMATION AND BELIEF.
